

EOI for further Brisbane and regional Instrument Tracking seminars

Due to overwhelming statewide interest in the **fully subscribed** May 19th Instrument Tracking Seminar, the DAA Qld Inc is seeking “Expressions of Interest” for this seminar to be presented again in Brisbane as well as regional areas.

Three dates in October are proposed – 9th, 16th and 23rd so if you were unable to attend the May seminar due to an unsuitable date or location, please take this opportunity to indicate your interest in attending by nominating an appropriate date/s and location.
We would appreciate feedback by return email, on your preferred options by **Friday 25.06.10**.

Recent public interest has seen further public scrutiny of Instrument Tracking..... “AS/NZS 4815:2006” Office-based health care facilities – Reprocessing of reusable medical and surgical instruments and equipment and maintenance of the associated environment...” Is it time to reassess how your practice “measures up” and get some traction on your tracking knowledge.

*Don't miss this great opportunity to hear **Kylie Galleta and Ann Maree Ford** from **Integrated Infection Control Pty Ltd** explain how “best practice” can be achieved.*

Please choose

My name is:

2010 DAAQ Member: Yes/No (please circle)

My preferred email address is:

My practice address and/or other contact details are:

.....
.....

I am interested in attending the Dental Instrument Tracking seminar and these dates are suitable: Yes/ No (please circle)

Saturday 9.10.10

Saturday 16.10.10

Saturday 23.10.10

My preferred location is:

**The number of people from my practice who are also interested in
attending at this location on these dates is:**
